Re: *State of Oklahoma v. Tyson et al.*,
No. 05-CV-0329-GKF-SAJ

Dear Ms. Southerland:

I discussed this with Robert George yesterday in advance of our filing our Motion to Supplement. Upon finding that the last PCA run provided to the Defendants had mistakenly contained data that had previously been rejected, the State reran the PCA without the rejected data. Attached you will find the PCA results for that run. As noted in our motion, there was no material difference in the results of the two runs.

Please call if you have any questions.

Sincerely,

Louis Bullock
